Subject – Suggestions about the PG MSE Draft related to Roganidana

Reference – Your letter No. BOA/2-I/2023 date 22 -05-2023 regarding

PG MSE Draft for public opinion

Dear & Respected Sir

With regard to the proposed draft, I would like to suggest following things :

1] The provision of either or (Professor or Reader) for starting the PG in the department should be abolished and the earlier regulations made by erstwhile CCIM Through its letter No. 4-90/2016-P.G. Regulation dated 7th November, 2016 should be restored. That is 1 Professor, 1 Reader and 1 lecturer should be made compulsory for undertaking the PG Course. Rather 1 additional professor should also be employed for sharing the responsibilities of the department. We don't understand the logic behind reducing the staff especially when the unemployment for professors is increasing both at government and private sector.

2] In the list of fellowship courses, the eligibility of Roganidan PGs is eliminated for courses like preventive cardiology, Ayur oncology for reasons unknown whereas the eligibility criteria given by Rashtriya Ayurved Vidyapeeth (RAV) makes the Roganidan PGs eligible for fellowship courses like Neurology, Dermatology and oncology. Hence, hereby we again request to your intelligent self to make the Roganidan PGs eligible for these fellowship and Vishishta Chkitsa (DM) courses.

3] The Doctorate of Medicine (DM) should also be started in subjects like Ayurvedic Neurology, Cardiology, Pulmonology, Nephrology and Roganidan PGs should be made eligible for these Vishishta Chkitsa (DM) courses.

4] Our earlier pending demand of starting diploma courses in X-Ray, USG, CT, MRI diagnosis and certificate courses in ECG, EEG diagnosis should be addressed.

Regards !

Your's faithfully

Roganidana Vikrutivigyana PG Association
for Pathology And Radiodiagnosis

Dr. Subhash D. Waghe

President / Secretary / Treasurer
